FASTCORE PHOTOS

Hello all,

This is the inception issue of Fastcore Photos and this documents pictures I've taken of fast hardcore, grindcore, and even a few doom metal bands during 2010. It really has been an amazing year of music for me, I have seen and taken pictures of bands I'd never thought I'd see in my life. Most photos were taken in DIY spaces or small local venues in Raleigh, North Carolina, and a scattered few were taken in DIY spaces in Durham, NC and Greensboro, NC as well as Richmond, Virginia and Baltimore, Maryland. I chose to take just one picture of every single band I've photographed this year to include in here.

I want to thank all bands for coming through our small town, sharing great times, and being awesome people. Much respect to all venues and show promoters as well as show goers. Huge thanks to Jace Kuhn for helping me with (mainly doing) this layout. Shoutouts all around: Matt Gauck (imperial artist), Will Toftness (crucial crustie), Paul Sunderland (label kingpin), Ralph Ferrara (dreamy dude), Ira Rogers (drumming freak) and Hank Williams (show aficionado)... you all keep me stoked on music. Much thanks to zines with punk ethics who have used my photos. Anyone who strives to put forth conscious DIY effort to make local shows a blast for everyone is a huge contributor to the scene and this is for you.
